Location

Mama Shelter Paris West

20 AVENUE DE LA PORTE DE LA PLAINE
75015 PARIS

COURSE DETAILS

The course is designed for urologists / oncologists and radiation therapist who have a working knowledge of onco-urology drugs and treatment techniques and seek to enhance their abilities to treat only patients with urological cancer such as kidney, prostate and bladder neoplasms. The course will use the principles of current guidelines and apply them to the last trials and most important data released in the literature to update treatment strategies. The focus will be improving oncological knowledge to achieve optimal clinical outcomes.

Exhibit Hall

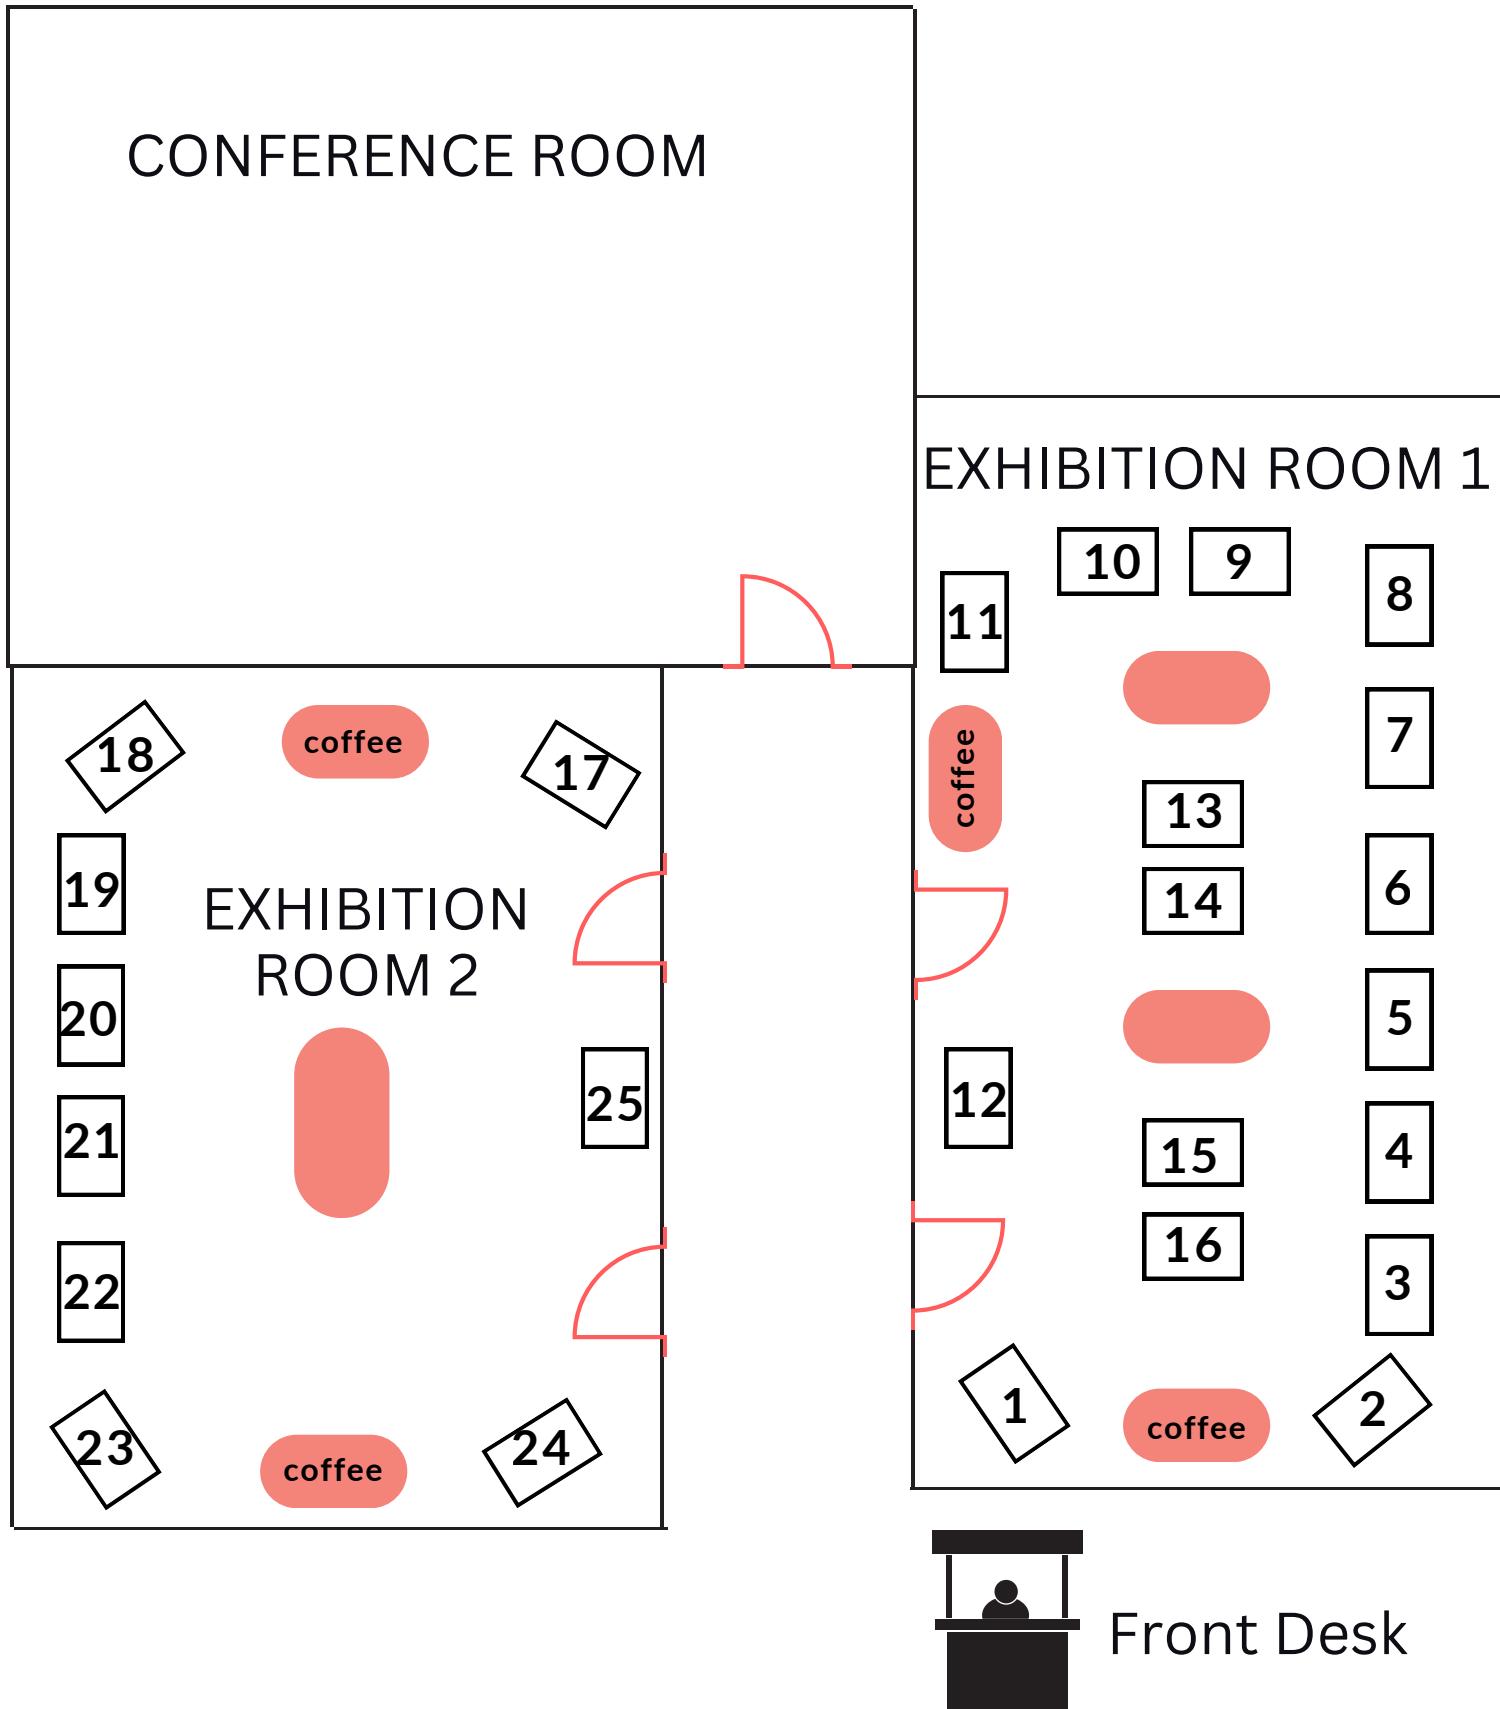

Exhibit Hall

BOOTH SELECTION

We use the **date of receipt** of an application with **payment** to determine exhibit space assignments. Exhibitors who apply early will have **priority**. Efforts will be made to accommodate requests for exhibitors to be near other companies, but those additional requests may impact placement within the hall.

1ST CHOICE :	3RD CHOICE :
2ND CHOICE :	4TH CHOICE :
While all preferences will be considered, requests to be near particular companies may hinder your requested placement as indicated above.
